Skirmishing
Stalling Bills
Premier to Rescue
Those Bye-Elections

By W. A. de Graves

"Was a dull day down over the hill on Wednesday. Private members who had been up to the capitol did it, and they left the skirmish without what they wanted, the legal members of the legislature.

The bulk of it occurred between 10 a.m. and 1 p.m. The speech over the Municipal Act, Mr. Groulx says, terrible things. Mr. Brownlie didn't. To hear Mr. Groulx tell it terrible company, he was to be sure to bring in say ground, was to fail to get the bill through. It was to be passed in Scratches, all there and be buried in Wetaskiwin. Mr. Groulx was to be sure to bring up the unfortunate village which had been buried in the ground. It sounded reasonable.

The real discussion, over which it was decided that a resident, under the new law, could not be a member of the legislature, was to be carried for by municipalities.

When the smoke cleared away it was decided that a resident, under the new law, could not be a member of the legislature, who has had his home in the village for at least three successive months, could not be a member prior to the date of his receiving the franchise.

An *indigent* means "a person actually destitute of means for obtaining food, clothing, shelter and medical attention for himself and his dependents."

Bad business in the U.S.A. considered this was a merciful affair, and they precipitated a warning to the government that the people thought that all expenses connected with the proposed act would be borne by the provinces.

After another back biter got up and said they would not be held to a municipality alone. It was to be a general franchise.

Starting the bills himself was one thing. Having them stalled by his fellow action was another.

Out of the 100 words these points gleamed clearly. A resident under the new law could not be a member of the legislature for at least three successive months prior to the date of his receiving the franchise.

Indigent means a person actually destitute of means from his own resources for obtaining food, clothing, shelter and medical assistance for himself and his dependents.

Suggested that the whole cost of indigent in the province should be pooled and made a provincial benefit. All the municipalities concerned agreed to meet with appraiser. Mr. Shields of Alberta suggested that the move, holding that it would spread the cost of indigent among the men in administration if this plan was followed. The idea caught on. Every member of the legislature voted to pass the bill. They thought the people were entitled to these services, but when Hon.

EDMONTON, March 18.—The Prince of Wales and Premier St. Laurent Baldwin were probably targets for bombs thrown during St. Patrick's Day festivities in the city, but no one was injured.

A tremendous confusion was caused, and panic-stricken rumors of an attempted double assassination stirred London to its foundations.

Bad business in the U.S.A. considered this was a merciful affair, and they precipitated a warning to the government that the people thought that all expenses connected with the proposed act would be borne by the provinces.

Rail Ranger Paddles 2,000 Miles in Season

Ten thousand miles of canoe paddling in northern Alberta was the hobby of Charles Jones, fire ranger of Athabasca, who is a visitor from the U.S.A.

Mr. Jones is in charge of one of the forest districts in the province though he is nearer the city than most of the others. His district is bounded on the west by the Athabasca River and on the east by the G.W.R. railway; a terrain devoid of white residents and populated only by Indians.

While a boy in his home country, he built a network of unmarked streams and on these the young rangers paddled all summer, being entertained in their home cabin for weeks at a time.

MILLIONS VOTE TO DISPOSSESS FORMER KAISER

MEASURE MUST COME BEFORE REICHSTAG AND PLIEBSCHE MAY FOLLOW

Special Bulletin Cable

BERLIN, March 18.—Eighty million voters have registered in favor of dispossessing the former ruler of Germany, the Emperor, as the election law provides.

The registration is the result of an official national plebiscite on the question.

Official constitution provides that where one-tenth of the votes cast in the election are in favor of the adoption of a measure, the measure must be introduced into the Reichstag.

In the event of the bill failing in the Reichstag, the measure will be held over until the next election.

The measure, which totals 16 million, hence totals 1,600,000,000 marks, or four million, hence twice as many votes were cast as was necessary.

The politicians were asking for many things, he said, but he gave them a definite answer.

"Mohins the lady doth protesteth much in thy cause," said Brownlee, the Calgary member's reply.

"Not optimism based on obvious facts, but rather a desire to know what I can do to help," he said.

And when he was asked if he could say why don't you call the legislature, he said: "Joseph Becham, and Mr. Becham lost his head in the argument."

Then there on the argument was technical and to the galleries the whole day was very tame.

Congratulations For the West.

The people of Regina have done the West a service in sending Hon. Charles Dunning to Ottawa without opposition. For the first time in its history, the half of the Dominion that is most vitally interested in the railway policy of the country is given a Minister of Railways of its own choosing. The unanimous verdict from Regina must be taken as final, that the welfare of the people of the whole West is in the hands of a man who is well able to administer the department and who knows the western railway situation "from the ground up."

Room For More of the Kind.

Italy has handed over to Britain \$10,000,000, the first payment made on its war debt, and the first installment due under a recently made agreement by which the whole obligation is to be liquidated in the course of time.

It seems to the seems to be the only one of his particular kind in Europe. Autocrats who dictate to their subjects to the effect that they must pay their debts are conspicuously in that continent.

U. S. newspapers, which divide their time between abusing Mussolini for bossing the Italians and abusing France for not paying its loans, are incidentally too tight to be moving Washington and the Ambassadorial corps to get a Mussolini installed at Paris.

A Railway Blockade.

The railways have shunted the Alberta-Ontario coal trade onto a side-track. The Dominion Government and the Governments of Ontario and Alberta offered to make up jointly any loss the railways might sustain in hauling an additional 200,000 tons of Alberta coal to the eastern provinces at \$7 per ton.

After a long coast last summer and all winter on the same basis, with the Dominion making up the loss, if there was any, the railways decide to continue the arrangement. They demand now that the Governments hand them in addition \$2 per ton for each ton hauled; promising that they will make up the change, if there is any, some time in the future.

Financially the two propositions amount to the same thing. The railways would get precisely the same number of dollars and cents for hauling the coal in the one case as in the other. And the two Governments would be out the same amount.

It is not to be supposed that the railways are refusing to carry on under the former terms, and demanding a new deal by which they would get no more money, though having some reason for it. If there is no dollar and cents reason, it must be of political, not two governments. Governments suspect that the railways want to establish \$9 as being the rate on coal in view of the coming investigation into freight rates by the Royal Commission.

Whether that guess is the right one or not, doubtless the railways are determined to do an unbusinesslike way of doing business. If they will not trust the Governments to pay their losses after these have been ascertained, certainly the governments cannot trust the railways to hand them back the right change. The Governments cannot properly consent to any such undignified and irregular procedure as handing over public money to pay an unspecified bill.

The Lethbridge Northern.

The Provincial Government has taken over the Lethbridge Northern Irrigation project, apparently lock, stock and barrel. While the Ministerial explanation is discreetly worded, it does not disguise that the enterprise is in a bad way, if not actually in collapse.

The immediate reason for taking charge is that the year before last the project had \$750,000 in irrigation rights in consequence of having backed the undertaking, and expects to have to pay this year \$750,000. This in addition to the cost of keeping up a campaign aimed at securing colonists for the tract—seemingly with no great amount of success since last year the water users were up only \$75,000.

The obvious fact is that irrigated land is not in keen demand in this country, and will not be while there are vast areas of idle land which does not require artificial watering. And behind that lies the question whether, with all the land in the tract available, the project can be made high enough to make the enterprise a financial success.

It will not help to pay the debt, but it may be useful for the future to note that this is not the only large irrigation scheme on the continent that has fallen into financial difficulties. In fact, from what I have seen, it appears to be the only one to seem to be about one hundred per cent failure. It is said that every large enterprise of the kind in the United States is bankrupt, though in many of them the land was eagerly taken up and is practically all occupied.

The question then is that there are considerable areas of wonderfully fertile land in southern Alberta which are irrigable. Whether it will pay to irrigate them at present is a question which the Lethbridge experiment seems to answer in the negative. And the testimony from other parts of the continent appears to be to the same effect. Irrigation, we may conclude, is premature so far as Alberta is concerned.

Just Folks

by Edgar A. Guest

WHY WE SUFFER
Laughter and tears, life and death,
Sorrow and heartache and pain,
Living our days on the earth,
Never a key we can choose
And, oh, how hard is the passing refuse.

Nothing grows forever free,
Nor is there a happiness that
The sinner, repentant, may be
Granted to the place he once had.
The soil where we grow is worn,

In the soil where our pleasure was grown.

Who smiles in the love of a friend
Must carry with him through the years
That the smile of a friend's friend shall end
An equal proportion of tears.

The world is full of woe,
The bitter some day weep.

You take not a bane in your arm
Without risking the pain of the day
When you take not a glorious chance
From your arm, nor take not joyous boast
How little we have, nor how much the most.

We are creatures of possible pain,
We have naught that shall pass away
We must give up whatever we gain
To live every day, for life we must give
Unto life that the spirit may live.

BIGEADING A U. S. PRESIDENT

It is really, but beheading his wooden image. At one time it was the custom to behead the wooden image of the president of the United States and burn it in the structure of "the Constitution" while it was in Chicago.

"Old Hickory" had a number of severe critics as well as admirers in Boston, and when the statue was to be erected in the city, the Bostonians, led by Captain Dewey, reported to be the daredevil of Boston, demanded the night of July 1st in elating the guard on board the steamer "General Jackson" from the Jackson figure.

The Jackson figure wandered about the country in Dewey's possession, and at one time was shown to a number of people in the New York theatre.

The Jackson figure was exhibited in New York.

Following the publication of Oliver Wendell Holmes' "Old Ironsides," there was a country-wide movement to keep the figure, and after only a few weeks there was another drive for that purpose.

The Jackson figure was exhibited in Boston, and all that left to mark the incident is a deep crack in the wooden head.

Five people know the history of that crack.

The image was given to the proprietor of a restaurant in Boston, and when the restaurant closed Ford bid \$100 for it, but did not get it. From that came the name "Old Ironsides."

Dorothy Dix's Letter Box

A Flapper Answers the Question Why Men Don't Marry Nowadays—How Much Can a Woman Influence a Man?

Dear Dorothy Dix—Why is it that boys who cannot keep a wife 19 years old, much less support them, are taking girls to marry them? I am 19 years old, very attractive looking and make a good salary. Now I am told that I am too young to be married. What do you think of the rest of the girls, too?

Dear Dorothy Dix—The other day I was told I can't marry any one poorer than I am because I have seen how my mother has had to raise and sacrifice to get along. I am the only girl in the family. I have no father, no law, and the average fellow would have to have about ten years to make up for the time I have been around during courtship. And he has got to take care of me, my home, my clothes, my car, my dog, my home and have other girls giggling at her because she is a flapper.

Most men think that a girl should be a good housekeeper and willing to sacrifice everything for his little sake alone. But it is time now for the man to start the same.

It seems so if some girls can hardly wait until they are 21 to get married. I don't know what they are getting into. Love soon dies and there is friend Husband just as he was before he got married.

Many have tried it and none succeed. Don't you think I am right?

JUST AN ORDINARY GIRL.

Answer:

Wifey, I think that you supply the best answer that has yet been given to this question. What men don't marry? They can't understand the conditions of marriage.

Let us begin with that matter of how to which you so feeling refer in the first paragraph of your letter. It is, without doubt, true that boys are given up to the idea that women won't marry them.

For, figure as he would, he could not make his wife provide bread and butter and clothes home and all the other luxuries of life.

Therefore the man sticks his挣钱 for a wife, as he does for a sports model car or some other extravagance that is his hobby. He wants to marry, but he can't afford to pay for it.

You further discourage matrimony by making the high cost of living so great that he can't afford to get married. And perhaps you cool off the man's enthusiasm for domesticity a degree or two by letting him know that you don't intend to be one of the most patient wives in the world.

It is the girl's turn to stand up to it.

It is the girl's turn to take a hard harrumph that you want to make with men. You demand a husband who shall be able to support you, to allow you to indulge you in extravagance, and you don't seem to offer him a start in the world.

Believe me, my dear, you are all wrong about this. The women who get the most out of matrimony are not those who take but those who give. The woman who gives the most influence, and I have heard many a millionaire say that her best days were those when she wore certain stockings and made her own clothes and cooked her own meals, is the girl whose husband gets a start in the world.

Don't pity your mother, who has had the full life of bringing up a family, and the comfortable life of widowhood. And don't believe that love always dies or that poverty kills love.

But happily, you will change all of your opinions on these subjects when a right man comes along and you fall in love with him. Then diffuse your influence.

DOROTHY DIX.

Dear Dorothy Dix—How much influence, good or bad, do women have over their husbands? I am a widow and my husband is dead. I should a husband permit his wife's influence to go to his sons' affairs and in his support and respect for his parents? CONFUSED.

Answer:

No woman is wise enough to answer these questions. Certainly they are far beyond my power, but I think that woman's influence over men is very much overrated.

Woman's power over men is mainly as an exhorter. She can cajole, charm and baffle him on the way he is going to go, and can seldom stop him, or make him go in a different direction. It is a man's wife who can stimulate him to greater efforts. If he is bad, she can make him worse; and if he is lazy and shiftless, she can take him to work.

But I have never known a woman who could make a bad man good, or a good man perfect.

Probably, however, it is easier to do something than to climb up, the influence of bad women seems far greater than that of good women.

The influence of wives runs along these same lines. Women can influence their husbands to their benefit, but there are very few who have influence enough to reform a drunkard or a rascal.

How much a wife's influence should govern a man in his business depends altogether upon what business ability and what sort of position he holds.

There are many women with positive financial genius, who are far-seeing and shrewd, and whose advice their husband would always be wise to take, but a man is foolish to let his wife influence him to go into wild speculations. A woman's influence is not always good, but it may be wise since she doesn't want to leave her family or friends.

However, she can be quite different, at least here one can only surmise.

THE GIRL IS ANGERED

LAUDIN agreed readily to the request of his princess. He left the holy woman—for he did not perceive the slighting of the magician, his master, as a personal affront that the roe's eye should hang in the garden. Once alone, Aladdin rubbed the oil.

ALBERTA TEAM HAD EARLY LEAD, BUT TIGERS STAGED BRILLIANT COMEBACK; TIE 3-3

Both Teams Were Playing Below True Form and Big Crowd Is Disappointed in Exhibition—Squads Were Evenly Matched

Exclusive to Bulletin

WINNIPEG, March 18.—The Tammany Tigers and Calgary Canadiens played a 3-3 draw here last night in a rather listless hockey fixture. It was the first game of a two game series for the junior Canadian hockey champions.

At the start the Albertans jumped into the lead, getting two quick goals in the first period. But then the Tigers staged a brilliant comeback, up to an even fighting basis with the invaders when in the third period he scored a pretty goal. The last stanza witnessed the best hockey of the night being played.

Canadian Again Lead Tammany

It went ahead again when Thompson took a long shot that hit the cross bar. Then the scoring was stopped, but the Tigers were not to be denied and they scored two more, with the final goal of the game.

Canadiens had a slight advantage over the visitors, but the visitors lost, although not to excess. Both teams are capable of getting goals, but the visitors are playing with one game under their belts should prove this.

The teams were evenly matched. The hockey seems up in the visitors' ranks, but was not of the best and that was disappointing. But the fans were home for the draw.

Lineup

Calgary Canadiens—Goal, Thompson; defense, Fred and Savage; topside, MacLean, Thompson, Teer, Sibley, McFadgen, McMillan.

Winnipeg Tigers—Goal, McDonald; defense, W. Arnold, and Prichard; topside, MacLean, Thompson, Patterson, Subie, McDonald, Wilson, LeFevre, Steeves, Maxwell and Condon.

RIVERDALE WINS COMMUNITY HOCKEY LEAGUE HONORS BY DEFEATING ROSS FLATS, 4 TO 1

Joe Simpson Trophy Holder For 1926-27 Is Decided at Arena—Last Hockey Game of Season—Dixon and Borden Star

What will most likely prove to be the last hockey game at the Arena this season was played last night when Riverdale defeated Ross Flats 4 to 1 to win the Community Hockey championship of the Community Hockey League and possession of the Joe Simpson trophy. The game, the series played on Monday night, was the last of the regular season and employed their opponents in every department of the game to win last night. The arena was packed, the floor was covered with water, was very hot, and the play was exceptionally fast during the whole game.

Riverdale Hot Edge

With the series standing at 10, both teams started off the night on a fast pace, and although the play was very even, Riverdale players were causing much more damage to Ross Flats than did those of that team. Dixon, in particular, was able to score shortly after the opening of the second period, Borden scored on a long shot from the boards, that sank

right into the top corner of the net, this was the prettiest goal of the night. The visitors then got into the Riverdale fort and secured on the rebound of a shot from Ross Flats 6.

Two goals down Ross Flats did not give them into the game in the third period, but were only able to score once, and this was necessary while Dixon scored two more for Riverdale. Dixon, however, was the star of the show for the winners. Dixon, in particular, Zuchetti and Maschimelli put up a good game for the losers, but the visitors were on the defensive and their opponents had the opportunity that was offered them.

Lineup

Riverdale—Goal, Sibley, W. Whistler, K. McLean, McKeown, J. Winkler, D. Winkler, W. Vasek, MacLean, Thompson, Ross Flats—Snowdon, H. Zuchetti, H. Lewis, Geden, L. Zuchetti, Kirtos, Ritter, Head, Hodges, Stan Stevens, Referee—Stan Stevens.

ESKIMOS LEAVE FOR COAST

The Eskimos left today at noon for Victoria where they will meet the Cougars in the first game for the Western Hockey League championships and the right to play-off with the east for the Stanley Cup. It was definitely decided yesterday that the Eskimos would play two games on the coast, one in Victoria and their home game at Vancouver.

Eddie Shore, defense star, who was injured yesterday in practice accompanied the team. He has a cut that is two inches deep in his right leg. According to Dr. Macleish, the club's doctor, Shore will be able to play. Fortunately the cut was in the flesh part of the leg.

A number of the depots are getting ready to take the Eskimos for a loss. However the Knats Kats will give a good account of themselves local fans can rest assured of this.

AMERICAN FLAG IS COMING BACK

NEW YORK, March 18.—American Flag, leading three-year-old of the Glen Ridge Farm, promises to come back to the races this spring the same as last year. The horse, a son of Hiddle, is the first of the year to be sent to the track.

However, American Flag will not be the only one to come back to the track this spring. Another horse, another fine distance campaigner in the past, is the three-year-old Hiddle.

He is the son of the famous

Kentucky Derby, but it is more than likely he will make the track his home this year. American Flag, who was second in the Kentucky Derby, has been sold to the New York track.

Padre Carroll, O.B.E., Conducts Services for Five Days

RED DEER—Commandant Carroll, C.B.E., formerly commanding officer of No. 1 Corps, Winnipegs, is here for five days to conduct services at the Salvation Army barracks. He completed 23 years' work as a Salvation Army officer before coming to Canada, the longest service in Great Britain and Canada. Perhaps the most outstanding service in the country is due Padre Carroll for his loyal and self-sacrificing efforts which he made in the cause overseas, for which he was made by the King a Companion of the Order of the British Empire. Since his return from overseas, Captain Carroll has been undergoing medical treatment for 26 months, and has been on the retired list since April 1924. He has been assigned to various points throughout Manitoba and also to Winnipeg City.

AN OPEN LETTER

Written to You

JUST TO ANNOUNCE
THE

BIG RE-OPENING

OF THE

King Edward Hotel

DINING ROOM

Saturday, March 20th

King Edward Hotel,
10180 101st Street.
March 17th, 1926

Dear Folks:

You remember when I closed my dining room on March 1? I had a job of spring cleaning to do, and I thought while I was at it I would remodel the dining room and turn it into a cafe. I knew I had a real dining room. That was one of the best in the West, and that my slogan "A Wonderful Dining Room" was appreciated. You came in hundreds there daily, and I was glad to see you, but I thought perhaps you would enjoy a change, and that the cafe idea would suit you. That's why I decided to give you a surprise, and I made no announcement before I closed the dining room to let the carpenters and others in.

Well, it was a surprise, folks, but I was the one that got the surprise. I'm cured from now on. From the first day I closed, the telephone began ringing. You called me up at the office, and you called me up at home. I didn't get time enough even to superintend the remodelling that was going on, and the more I explained what I was doing for you, the more surprised I got. You didn't want a cafe. You liked that dining room as it was. It was a home from home, and you wanted it kept that way.

Well folks, my business is to please you. I can't stay in business unless I do. The public is my boss, and the order around the King Edward that "The guest is right every time" is no ornament; it's working twenty-four hours a day. That's why I'm writing you this letter.

I want you to know that I think your judgment is better than mine on this thing. That I am here to serve you the way you want to be served. That's why I'm announcing that the dining room will be re-opened on Saturday, March 20.

Of course it will be all spruced up. The painters and polishers and carpenters have all been in. The cloakroom is remodelled and there is a lot more room now. But the service and the meals and the home-from-home atmosphere you liked will all be there again. It will be the same wonderful dining room and the same wonderful meals. I know you'll be glad to come back again folks, but you won't be the only ones. You'll find us just as glad to have you, and the gladdest of all, because I know now what you think of the King Edward Hotel dining room, will be.

Yours sincerely,

The Management
